## Tableaux statistiques

Les astérisques (\*) désignent les tableaux de la section K, qui sont publiés à des fréquences variables. La date la plus récente de publication de ces tableaux est indiquée entre parenthèses.

#### Fableaux synoptiques S7

- Sommaire des variables clés relatives à la politique monétaire A
- Principaux indicateurs financiers et économiques

#### Banque du Canada S12

- Banque du Canada: Séries mensuelles 81
- Banque du Canada: Séries hebdomadaires B2
- Banque du Canada: Séries hebdomadaires **B3**
- Statistiques relatives aux billets de la Banque du Canada contrefaits B4
  - Passif-billets de la Banque du Canada (Printemps 1999)

#### Banques à charte S18

- Banques à charte : Quelques éléments de l'actif Moyenne mensuelle
  - Banque à charte : Quelques éléments du passif Moyenne mensuelle 5
    - Banques à charte : Actif Séries de fin de mois
    - 3
- Banques à charte : Passif Séries de fin de mois C4
- Banques à charte : Répartition régionale de l'actif
- Banques à charte : Répartition régionale du passif
- Banques à charte : Ventilation trimestrielle des prêts non hypothécaires
- Quelques statistiques bancaires désaisonnalisées : Avoirs et engagements des Banque à charte : Répartition trimestrielle du passif-dépôts (Juillet 1999) 80
  - banques à charte
- Banques à charte : Avoirs et engagements en monnaies étrangères
- Banques à charte : Ensemble des créances et engagements comptabilisés C10
- Association des banquiers canadiens : Crédit consenti aux entreprises au dans le monde au nom de non-résidents
- Ensemble des banques à charte : État consolidé des revenus, des dépenses et
  - de l'avoir propre des actionnaires (Juillet 1999)

#### Other financial institutions S44 D.

- mortgage subsidiaries: Quarterly statement of estimated assets Trust and mortgage loan companies excluding bank trust and and liabilities D
- Local credit unions and caisses populaires: Quarterly statement of estimated assets and liabilities D2
  - Deposits with government savings institutions (Spring 1999) K4\*
    - Sales finance companies: Quarterly statement of estimated assets and liabilities
- Life insurers (including accident and sickness branches) and segregated funds
  - Investment funds: Quarterly statement of estimated assets and liabilities 05

#### Financial aggregates S54

- Selected monetary aggregates and their components Ξ
  - Selected credit measures E2
- Monetary aggregates and credit measures (Spring 1999) K7\*

#### Financial markets S64

- Financial market statistics
- Corporate short-term paper outstanding E
- Stock market statistics: Canada and United States E
- Net new security issues placed in Canada and abroad F
- Net new security issues placed in Canada (includes foreign currency issues placed in Canada) FS
  - Net new security issues placed abroad (includes Canadian F6
    - Gross new bond issues and retirements: Government of dollar issues placed in overseas markets) E
      - Gross new bond issues and retirements: Municipalities Canada and provinces 8
        - Gross new issues and retirements: Corporations, other institutions, and foreign borrowers 3
- Net new issues of securities by financial and non-financial corporations F10
  - Bonds outstanding: Government of Canada, provincial, municipal, corporate, and other bonds (October 1999) K8\*
    - Net new issues of corporate securities: Industrial classification (October 1999) K9\*
      - Money market trading by type of security F
- Bond market trading by type of security F12

## Autres institutions financières S44

- Sociétés de fiducie ou de prêt hypothécaire, à l'exception des filiales de banques à charte : Situation trimestrielle (estimations) 10
  - Caisses populaires et crédit unions locales : Situation trimestrielle (estimations) D2
- Dépôts dans les caisses d'épargne publiques (Printemps 1999)
  - Sociétés de financement des ventes : Situation trimestrielle D3

(estimations)

- Compagnies d'assurance vie (y compris leurs divisions d'assurance accidents et d'assurance maladie) et caisses séparées
  - Sociétés de placement : Situation trimestrielle (estimations) D5

#### Agrégats financiers S54

- Agrégats monétaires et leurs composantes 3
  - Quelques indicateurs du crédit E2
- Agrégats monétaires et mesures du crédit (Printemps 1999)

#### Marchés financiers S64

- Statistiques du marché financier E
- Encours des effets à court terme des sociétés 52
- Statistiques boursières: Canada et États-Unis F3
- Émissions nettes de titres placés au Canada et à l'étranger
- Émissions nettes de titres placés au Canada (y compris les titres libellés F E
- Émissions nettes de titres placés à l'étranger (y compris les titres libellés en monnaies étrangères placés au Canada) F6
  - Émissions brutes d'obligations et remboursements : Gouvernement en dollars canadiens placés sur les marchés d'outre-mer) E
    - canadien et provinces
- Émissions brutes de titres, remboursements et rachats : Sociétés, autres Émissions brutes d'obligations et remboursements : Municipalités F.
- Émissions nettes de titres : Sociétés financières ou non financières institutions et emprunteurs étrangers FIO
  - Encours des obligations : Gouvernement canadien, provinces, K8\*
- Émissions nettes des sociétés: Répartition selon la branche d'activité municipalités, sociétés et autres emprunteurs (Octobre 1999) K6\*
- Répartition des opérations conclues sur le marché monétaire, par catégorie de économique (Octobre 1999) Ξ
- Répartition des opérations conclues sur le marché obligataire, par catégorie de

- Government of Canada treasury bill and bond trading with counterparties F13
- Strip bond trading and repos by type of security F14
- Financial futures F15
- K14 \* Bank of Canada transactions (par value) (Spring 1999)

### Government of Canada

- Government of Canada fiscal position 5
- Government of Canada direct marketable bonds: New issues and retirements **G2**
- Government of Canada direct marketable bonds: Details of unmatured outstanding issues G
- Government of Canada direct securities and loans: 3
- Government of Canada direct securities and loans: Distribution of holdings GS
- Government of Canada direct securities and loans: Distribution by type of holder 95
- Classified by remaining term to maturity and type of asset Holdings of general public classified by remaining term Government of Canada direct securities and loans: to maturity 67

### General economic statistics S94

- National accounts
- Gross domestic product at constant prices
  - Gross domestic product: Price indexes
- Gross domestic product at factor cost by industry H4
  - Labour force status of the population
- Labour force status of the population by region 9H
  - Residential construction
    - Consumer price index 2 1 2 3
- Other prices and costs
- Contribution of indirect taxes to changes in the consumer price Consumer price index excluding the effect of indirect taxes index (Spring 1999)

- Répartition des opérations conclues sur bons du Trésor et obligations du gouvernement canadien, par partie contractante F13
- Répartition des opérations sur obligations coupons détachés et opérations avec clause de réméré, par catégorie de titres FI4
- Contrats à terme sur instruments financiers FIS
- K14 \* Opérations de la Banque du Canada (valeur nominale) (Printemps 1999)

### Gouvernement du Canada S83

- Trésorerie du gouvernement canadien CI
- Obligations négociables émises par le gouvernement canadien : **Emissions et remboursements** G2
  - Obligations négociables émises par le gouvernement canadien : Description des titres non échus en circulation 63
    - Titres et emprunts émis par le gouvernement canadien : 5
      - Répartition des portefeuilles
        - l'itres et emprunts émis par le gouvernement canadien : Répartition des portefeuilles par type de détenteur GS
- Titres et emprunts émis par le gouvernement canadien : Répartition par terme à courir et catégorie d'avoirs 95
- Répartition, par terme à courir, des portefeuilles du public Titres et emprunts émis par le gouvernement canadien : 67

## Statistiques économiques diverses S94

- Comptes nationaux
- Produit intérieur brut à prix constants H2
- Produit intérieur brut : Indices des prix H3
- Produit intérieur brut au coût des facteurs, par branche d'activité H4
  - Répartition de la population active HS H
- Répartition de la population active par région 9H
  - Construction résidentielle
- Indice des prix à la consommation ∞ <u>T</u>
  - Autres prix et coûts
- Contribution des impôts indirects aux variations de l'indice des prix Indice des prix à la consommation hors effets des impôts indirects
  - à la consommation (Printemps 1999)

## Foreign exchange market and reserves S104

- Exchange rates
- Canada's official international reserves
- K11\* Exchange Fund Account: Assets and liabilities (September 1999)

## Balance of payments and external trade S106

- Canadian balance of international payments: Current
- Canadian balance of international payments: Capital
- 12
- Exports and imports by area (balance of payments basis) 13
  - Merchandise trade: Prices, terms of trade, and volume (balance of payments basis) 4
- Commodity classification of merchandise exports: Price and volume (balance of payments basis) 15
- Commodity classification of merchandise imports: Price and volume (balance of payments basis) 96

# Marché des changes et réserves de change S104

- Cours du change
- Réserves officielles de liquidités internationales du Canada
- K11\* Fonds des changes: Avoirs et engagements (Septembre 1999)

\* Because each of the component and aggregate series for the period prior to the 1992 base year is mechanically scaled to link with the post-base-year series, the individual component series do not sum to the corresponding aggregate series for data prior to 1992. Adjusting series designed to make the time series additive are available from Statistics Canada and from CANSIM.

Comme les chiffres de chacune des composantes du PIB et du PIB ¿dobal pour la période antérieure à l'année de base 1992 ont été a justée pour les rescordés à ceux de la période portérieure, la somme des composantes est différente du chiffre global pour les données antérieures à 1992. On peut se procurer auprès de Statistique Canada et de CANSIM les séries d'ajustement servant à égaliser les résultats.

Gold and foreign currency assets are now reported at their end-of-menth market value. Prior to June 1999, gold was reported at SDR35 per currency assets were reported on an accitual accoming basis.

<sup>\*</sup> Les avoirs en or et en monnaises étrangères sont maintenant comptabilitée à leur valeur marchande en fin de mois. Avant juin 1999, l'or était évalue sur la base de 35 DTS l'once, alors que les chiffres relatifs aux avoirs en monnaise étrangères étaient calculés selon la méthode de comptabilité d'exercice.

## Notes to the tables

## Symbols used in tables

- Data column is discontinued.
  - E Estimated
- Revised
- Value is zero or rounded to zero.

Note: Blank spaces in columns indicate data are either not available or not applicable.

Owing to the rounding of figures, components may not always add up to the totals shown.

A horizontal rule in the body of the table indicates either a break in the series or that the earlier figures are available only at a more aggregated level.

# CANSIM Data bank identification numbers

Many of the time series published in the Bank of Canada Banking and Financial Statistics are available from Statistics Canada in machine-readable form, for use on computers and on printouts. Each time series of annual, quarterly, monthly, or weekly data on the CANSIM system (Canadian Socio-economic Information Management) has an identification number. Series maintained by Statistics Canada have D, L, P, or I prefixes (as in D1432), those maintained by the Bank of Canada have a B prefix (as in B318). The identification number is given as a reference at the top of each column of data and refers to the series of weekly, monthly, or quarterly data in that column. Where the frequency of a series as it is available on CANSIM is different from that shown in the table or where a combination of quarterly and monthly data is shown in the table, the frequency of the CANSIM series is indicated by a superscript M, if quarterly. Current and revised data are entered into CANSIM immediately on release.

### Weekly series

The tables in the Statistics do not cover a full year of weekly data. For all Wednesday series, in the event that a holiday falls on a Wednesday, data for the preceding business day will be shown. Figures for weekly series for which the Bank of Canada is the source are available on request from the Department of Monetary and Financial Analysis. Bank of Canada, Ottawa K1A 0G9.

### Notes to the tables

The reference notes to the statistical tables in the Statistics are printed separately and are updated and reprinted from time to time. The most recent note supplement is dated January 1999. Copies of the Notes to the tables may be obtained by writing to the Bank of Canada Review, Publications Distribution, Communications Services, Bank of Canada. Ottawa K1A 0G9, E-mail address: publications@bank-banque-canada.ca.

## Abréviations utilisées dans les tableaux

Notes relatives aux tableaux

- D Série supprimée
- Chiffres estimatifs
  - Chiffres révisés
- Valeur nulle ou arrondie à zéro

Nota - Les expuces vides des colonnes signifient que les données ne sont pas disponibles ou ne s'appliquent pas. Du fait que les chiffres sont arrondis, la somme des éléments ne correspond pas toujours exactement au total indiqué. Une ligne horizontale dans le corps d'un tableau indique soit qu'il y a une rupture dans une série, soit que les données des périodes antérieures n'existent que sous une forme plus agrégée.

# CANSIM- Numéros de référence des séries de Databank

Nombre de séries chronologiques publiées dans les Statistiques bancaires et financières de la Banque d'u Canada peuvent être obtenues de Statistique Canada sous une forme directement exploitable par ordinateur ou sous la forme d'imprimés. Elles font partie intégrante du fichier CANS' (1), dont chaque série chronologique – annuelle, trimestrielle, mensuelle ou hebdomadaire – es désignée par un numéro de référence. Les numéros des séries élaborées par Statistique Canada sont précédés de la lettre «D», «L», «P» ou « I», (par exemple : D432), ceux des séries de la Banque du Canada, de la lettre «B» (par exemple : B318). Dans nos tableaux, le numéro apparaît en tête de colonne et désigne la série rebdomadaire, mensuelle ou trimestrielle qui figure dans la colonne; lorsque les fréquences de données figurant au fichier CANSIM et dans un tableau de la Revue different ou que le tableau comporte à la fois une série mensuelle et une série trimestrielle, la fréquence de la série CANSIM est indiquée par la lettre «M» si la série est mensuelle et par la lettre «O» si elle est trimestrielle.

 CANSIM est l'abséviation de Canadian Socio-economic Information Management System — Système catastien le traitement des données socio-économiques.

### Séries hebdomadaires

Dans les tableaux des Statistiques hancaires et financières, les séries hebdomadaires ne couvrent pas une année entière. Lorsque le mercredi est un jour férié, les statistiques du mercredi sont établies à partir des données du jour ouvrable précédent. On pourra obtenir les données provenant de la Banque du Canada en s'adressant au dépar-tement des Études monétaires et financières, Banque du Canada, Ottawa K1A 0G9.

## Notes relatives aux tableaux

Les notes relatives aux tableaux des Statistiques bancaires et fauncières font l'objet d'une publication distincte et sont mises à jour et réimprimées de temps à autre. La plus récente édition des notes date de janvier 1999. Ceux qui désirent recevoir des exemplaires des notes sont priés de s'adresser à la Revue de la Banque du Canada. Diffusion des publications. Services de communication. Banque du Canada. Ottawa, K1A 0G9 ou d'adresser tout message électronique à : publications@bank-banque-canada.ca.

### \*

- In February 1991, the federal government and the Bank of Canada jointly announced a series of targets for reducing inflation to the finidpoint of a range of 1 to 3 per cent by the end of 1995. In December 1993, this target range was extended to the end of 1998. In February 1998, it was extended again to the end of
- (2-3) Year-to-year percentage change in consumer price index (Table H8). The core CPI is the CPI excluding food, energy, and the effect of indirect taxes.
  - (4-5) The operating band is the Bank of Canada's 50-basis-point target range for the average overnight rate paid by investment dealers to finance their money market inventory.
- (6) The overnight money market financing rate is an estimate compiled by the Bank of Canada. This measure includes funding of the major money market dealers through general collateral buyback arrangements (repo) including special purchase and resale agreements with the Bank of Canada and funding through call loans and swapped foreign exchange funds. Prior to 1996, data exclude all repo activity with the exception of those arranged directly with the Bank of Canada. These latter have been included in the calculation since 1995.
  - (7) The monetary conditions index is a weighted sum of the changes in the 90-day commercial paper rate and the C-6 trade-weighted exchange rate (see technical note in the Winter 1998–1999 issue of the Bank of Canada Review, pages 125 and 126). The index is calculated as the change in the interest rate plus one-third of the percentage change in the exchange rate. The Bank does not try to maintain a precise MCI level in the short run. See Monetary Policy Report, May 1995, p.14.
    - precise MCI level in the short run. See Monetary routey Report, may 1970; p.14.

      (8) 90-day commercial paper rate. The rate shown is the Bank of Canada's estimate of operative market trading levels on the date indicated for major borrowers?
- (9) The C-6 exchange rate is an index of the weighted-average foreign exchange value of the Canadian dollar against major foreign currencies. (See technical note in the Winter 1998–1999 issue of the Bank of Canada Review, pages 125 and 126.) Weights for each country are derived from Canadian merchandise trade flows with other countries over the three years from 1994 through 1996. The index has been based to 1992 (i.e., C-6 = 100 in 1992). The C-6 index broadens the coverage of the old G-10 index to include all the countries in the EMU.
  - (10) Gross M1: Currency outside banks plus personal chequing accounts plus current accounts plus adjustments to M1 described in the notes to Table E1.
    - (11) M1++: M1+ plus non-chequable notice deposits held at chartered banks, trust and mortgage loan companies, and credit unions and caisses populaires less interbank non-chequable notice deposits plus continuity adjustments.
- (12) M2++: M2+ plus Canada Savings Bonds plus cumulative net contributions to mutual funds other than Canadian dollar money market mutual funds (which are already included in M2+).
- (13) Yield spreads between conventional and Reul Return Bonds are based on actual mid-market closing yields of the selected long-term bond issue. At times, some of the change in the yield that occurs over a reporting period may reflect switching to a more current issue. Yields for Real Return Bonds are mid-market closing yields for the last Wednesday of the month and are for the 4.25% bond maturing 1 December 2026. Prior to 7 December 1995, the benchmark bond was 4.25% maturing 1 December 2021.
- (14-15) CPIX excludes the eight most volatile components from the CPI as well as the effect of indirect taxes on the remaining components. CPIW adjusts each of the CPI basket weights by a factor that is inversely proportional to the component's

### A1

- (1) En février 1991, le gouvernement fédéral et la Banque du Canada ont annoncé conjointement l'établissement d'une série de cibles en vue de ramener l'inflation au milieu d'une fourchette de 1 à 3 % pour la fin de 1995. En décembre 1993, il a été décidé de maintenir cette fourchette jusqu'à la fin de 1998. En février 1998, son application a été prolongée jusqu'à la fin de 2001.
  - (2-3) Variation sur douze mois de l'indice des prix à la consommation (Tableau HB). L'indice de référence correspond à l'IPC hors alimentation, énergie et effet des impôts indirects.
- (4-5) La fourchette opérationnelle est la fourchette de 50 points de base établie par la Banque du Canada pour l'évolution du taux moyen auquel les courtiers en valeurs mobilières financent au jour le jour leurs stocks de titres du marché monétaire.
- (6) Taux du financement à un jour. Il s'agit d'une estimation faite par la Banque du Canada, Cette mesure comprend le taux du financement obtenu par les principaux négociants du marché monétaire sous forme d'opérations générales de nantissement, notamment de pensions spéciales conclues avec la Banque du Canada, et sous forme de prêts à vue et de swaps de devises. Avant 1996, toutes les opérations de pension étaient exclues à l'exception de celles qui étaient négociées directement avec la Banque du Canada. Ces demières sont prises en compte dans les calculs depuis 1906.
- (7) L'indice des conditions monétaires (ICM) est une somme pondérée des variations qu'enregistrent le uaux du papier commercial à 90 jours et l'indice C-6 des cours du dollar canadien pondérés en fonction des échanges commerciaux (voir la note technique publiée dans la livraison d'hiver 1998-1999 de la Revue de la Banque du Canada, pages 125 et 126). L'ICM correspond à la somme des variations du taux d'intérêt et du tiers des variations du taux de change. La Banque ne s'efforce pas, à court terme, de maintenir l'ICM à un niveau précis. Voir la livraison de mai 1995 du Rapport sur la politique monétaire, page 15.
- (8) Toux du papier commercial à 90 jours. Il s'agit d'une estimation, faite à la Banque du Canada, des taux effectivement pratiqués sur le marché par les principaux emprunteurs à la date indiquée.
- (9) L'indice C-6 est une moyenne pondèrée des cours du dollar canadien par rapport aux grandes monnaies. (Voir la note technique publiée dans la livraison d'hiver 1998-1999 de la Revue de la Banque du Canada, pages 125 et 126.) Les poids attribués aux divers pays s'appuient sur le volume des échanges commerciaux du Canada avec chacun de ces pays au cours des années 1994, 1995 et 1996. L'année de base de l'indice est 1992 (c'est-à-dire que l'indice C-6 est égal à 100 en 1992). L'indice C-6 est plus large que l'indice utilisé auparavant, qui était fondé sur les monnaies des pays du Groupe des Dix, puisqu'il inclut tous les pays de l'Union économique et monétaire européenne.
- (10) M1 brut : Monnaie hors banques, plus les comptes de chèques des particuliers, les comptes courants et les corrections apportées à M1 qui sont décrites dans les notes relatives au Tableau E1
  - (11) MI++: MI+ plus les dépûts à préavis non transférables pur chèque dans les banques, les sociétés de fiducie ou de prêt hypothécaire, les caisses populaires et les credit unions, moins les dépûts interhancaires à préavis non transférables par chèque, auxquels s'ajoutent les corrections effectuées pour assurer la continuité des données.
    - (12) M2++: M2+ plus les obligations d'épargne du Canada, les montants cumulatifs nets verxés dans les fonds communs de placement autres que les fonds du marché monétaire en dollars canadiens (lesquels sont déjà comptabilisés dans M2+)
- (13) L'écart de rendement entre les obligations classiques et à rendement réel est calculé en fonction de la moyenne des cours acheteur et vendeur, à la clôture, d'une émission d'obligations à long terme prédéterminée. Les variations des taux de rendement observées sur une période peuvent être partiellement imputables au remplacement de l'émission par une autre plus pertinente. Le rendement des obligations à rendement reel est calculé en fonction de la moyenne des cours acheteur et vendeur établie à la clôture le dernier mercredi du mois et se rapporte aux obligations à rendement réel 4.2.5 % arrivant à échéance le l'édécembre 2026. Avant le 7 décembre 1995. I'émission de référence était l'émission 4.2.5 % échéant le 1<sup>ex</sup> décembre 2021.
  - (14-15) IPCX exclut les huit composantes les plus volatiles de l'IPC ainsi que l'effet des impôts indirects sur les autres composantes. IPCP multiplie chacune des pondérations des composantes du panier de sur les autres composantes.

- soit dans le cadre de ses opérations d'open-market avec les banques à charte ou les courtiers en valeurs · Titres émis ou garantis par le gouvernement canadien. La Banque du Canada achète ces titres mobilières, soit directement du Receveur général du Canada. Avant le 10 novembre 1999, ce poste comprend également le montant des titres pris en pension.
- Les autres hons sont ceux que la Banque du Canada peut acquérir de temps à autre dans le cadre de ses opérations d'open-market. Avant décembre 1980, ces titres pouvaient aussi être utilisés dans le cadre d'opérations de prise en pension avec les courtiers en valeurs mobilières.
- Avances aux membres de l'Association canadienne des paiements. Jusqu'au 1<sup>et</sup> décembre 1980, ces avances n'étaient consenties qu'aux banques à charte et aux banques d'épargne du Québec.
  - Titres émis par la BEI (Banque d'expansion industrielle). Ce poste comprenait le capital-actions et les débentures de la Banque d'expansion industrielle jusqu'au 2 octobre 1975, date à laquelle la Banque fédérale de développement s'est substituée à la BEI. Les actions de la BEI ont alors été achetées à leur valeur nominale par le gouvernement canadien.
    - Aurres placements. Ce poste comprend principalement les titres libellés en dollars É.-U.
- Chèques sur d'autres banques et Solde des effets du gouvernement canadien en compensation journalières de compensation des chèques et des autres effets de paiement, le solde des chèques tirés (Tableau B1). Depuis l'adoption, le 16 juillet 1986, du mode de règlement rétroactif des opérations

negligible or nonexistent, while Government of Canada items in transit (net) have been eliminated.

• All other assets (Table B1) consist principally of Bank premises and equipment. Beginning 10 November 1999, this category includes the amount of securities held under purchase and resale agreements (PRAs). Prior to that date, the amount of securities held under purchase and resale agreements is included in Government of Canada direct and guaranteed securities. In Table B2, for the period prior to 16 July 1986, all other assets also include cheques on other banks, Government of Canada items in transit (net) and accrued interest on investments. This category also includes other bills, advances to the Government of Canada advances to the Government of Canada and investment in the IDB.

Purchase and resale agreements (PRAs) are arrangements whereby the Bank of
Canada provides temporary accommodation to certain money market participants through
the purchase of Government of Canada securities with a commitment to resell them at a
later later description of purchase and resale agreements can be found in the note
to Table 83.)

Notes in circulation include notes held by the chartered banks and by the general
public. The total includes a small amount of notes issued by governments and banks
before the Bank of Canada became the sole issuer of notes in circulation in Canada and
took over the liability for these early notes from their original issuers.

Canadian dollar deposits of the Government of Canada. This is the deposit account
used by the Receiver General for Canada for current requirements. Receipts and
disbursements made by the Bank of Canada in performing its fiscal agency functions for
the government are handled through this account. The Receiver General for Canada also
maintains deposit accounts with the direct clearers of the Canadian Payments Association.

 Other Canadian dollar deposits (Table B1) include privately owned balances transferred by the chartered and savings banks because they have been unclaimed for 10 years. Prior to February 1983 this item also included deposits of the Quebec savings banks. In Table B2, the accounts of Government of Canada enterprises, foreign central banks and official institutions are also included.

 Foreign currency liabilities include balances maintained by the federal government and by other central banks.

All other liabilities (Table B1) include the net revenue of the Bank of Canada
payable to the Receiver General for Canada and the total of the paid-up capital
(\$5 million), and the rest fund (\$25 million). At 31 December 1955, the rest fund had
reached the maximum permitted under the Bank of Canada Act of five times the paid-up
capital. Since then, all of the net revenue has been remitted to the Receiver General for
Canada.

The data presented in Table B3 have been changed to reflect the implementation of the Large Value Transfer System (LVTS) on 4 February 1999. The revised table contains data on the overdraft loans, positive balances, and special deposit account balances of members of the Canadian Payments Association, which are held at the Bank of Canada. Since the calculation periods previously used are no longer relevant in the LVTS environment, all the data, including the bayback operations, are reported as weekly and monthly daily averages.

sur d'autres banques est négligeable ou nul, tandis que celui des effets du gouvernement canadien en compensation a été éliminé.

Autres éléments de l'acif (Tableau B1). Comprend principalement les immeubles et l'équipement
appartenant à la Banque. À compier du 10 novembre 1999, ce poste comprend également le montant des
titres pris en pension. Avant cette date, ces titres étaient regroupés avec les titres érais ou garantis par le
gouvernement canadien. Au Tableau B2, cette robrique couvre aussi, avant le 16 juillet 1986, les chèques
sur d'autres banques, le solde des effets du gouvernement canadien en compensation ainsi que les intérêts
courns sur les placements. Elle comprend également les bons autres que les bons du Trésor, les avances au
gouvernement canadien et les titres émis par la BE1.

Effets pris en pension. Les prises en pension sont des opérations par l'esquelles la Banque du Canada
accorde des facilités de caisse, à titre temporaire, à certains agents du marché monétaire en achetant de ces
demiers des titres du gouvernement du Canada qu'elle s'engage à leur revendre à une date ultérieure. (On
trouvera d'autres détails à ce sujet dans la note relative au Tableau B3.)

Billeis en circulation. Ce poste comprend les billets de la Banque du Canada détenus par les banques
à charte et par le public. Il comprend également un petit montant de billets émis par les gouvernements et
les banques du temps où le privilège d'émission n'était pas réservé exclusivement à la Banque du Canada et
qui sont encore en circulation. La Banque du Canada est chargée de racheter ces billets pour le compte des
émetteurs.

 Dépôts en dollars canadiens du gouvernement canadien. Il s'agit là du compte utilisé par le Receveur général du Canada pour effectuer ses opérations courantes. Les encaissements et les paiements effectués par la Banque du Canada à titre d'agent financier du gouvernement canadien sont imputés à ce compte. Le Receveur général du Canada a également des dépôts chez des membres adhérents de l'Association canadienne des paiements.

 Aurres dépôts en dollars canadiens. Comprennent, au Tableau B1, les comptes et autres effets transférés à la Banque du Canada par les banques à charte et les banques d'épargne, parce qu'ils n'ont pas été réclamés depuis dix ans. Avant février 1983, ce poste comprenait aussi les dépôts des banques d'épargne du Québec. Comprennent en outre, au Tableau B2, les dépôts des entreprises du gouvernement canadien, d'autres banques centrales et d'organismes officiels étrangers.

 Engagements en monnaies étrangères. Comprennent les dépòts en devises maintenus par le gouvernement canadien et par d'autres banques centrales.

 Autres éléments du passif (Tableau B1). Comprennent le montant net des revenus que la Banque du Canada doit verser au Receveur général du Canada, le capital versé (5 millions de dollars) et le fonds de réserve (25 millions de dollars). Au 31 décembre 1955, le fonds de réserve avait atteint le maximum fixé par la Loi sur la Banque du Canada, soit cinq fois le montant du capital versé. Tous les bénéfices réalisés par la suite ont été versés au Receveur général du Canada.

### B3

Source: Banque du Canada

Les données du Tableau B3 ont été modifiées de façon à tenir compte de l'entrée en service du système de transfert des paiements de grande valeur (STPGV) le 4 février 1999. Le tableau révisé renferme des données sur les prêts pour découvert. Les soldes créditeurs et les soldes des comptes spéciaux de dépôt des membres de l'Association canadienne des paiements à la Banque du Canada. Étant donné que les périodes des calcul utilisées précédemment ne sont plus pertinentes depuis l'arrivée du STPGV, toutes les données, y compris celles ayant trait aux opérations de vente à rémèré, sont regroupées en moyennes quotidiennes et déclarées sur une base hebdonndaire et mensuelle.

- Currency outside banks includes Bank of Canada notes and coin in circulation.
   Holdings of notes are calculated by deducting the amount held by the chartered banks from the total amount of notes outstanding. The amount of coin in circulation outside banks is obtained by deducting coin held by the chartered banks and the Bank of Canada from the total amount outstanding as reported by the Royal Canadian Mint. Chartered bank net demand deposits are Canadian dollar gross demand deposits net of estimated private sector float.
- Adjustments to MI, which are included in Gross MI, include continuity adjustments as well as adjustments for demand deposits of other chartered banks.
  - Adjustments to M2 include continuity adjustments as well as notice deposits of other chartered banks.
- Adjustments to M3 include continuity adjustments as well as term deposits of other national hanks.
- Data for trust and mortgage loan companies for months between quarter-ends are estimated by a combination of interpolation of quarterly Statistics Canada data supplemented by some available monthly data.
- Data for credit unions and caisses populaires for months between quarter-ends are estimated using monthly data obtained from the larger provincial centrals and federations.
  - Data for life insurance company individual annuities are created from quarterly Canadian Life and Health Insurance Association data. Data for the months between quarter-ends are derived using linear interpolation.
    - Personal deposits at government-owned savings institutions include personal
      deposits at Alberta Treasury Branches and total deposits at Province of Ontario Savings
      officers.
- Data for money market mutual funds represent the assets of funds that primarily invest in Canadian dollar-denominated short-term money market instruments. These data are obtained from Globe Information Services.
- Adjustments to M2+ include continuity adjustments as well as credit union and
  caises populaire share capital, less the sum of Receiver General deposits at trust and
  mortgage loan companies, trust and mortgage loan company holdings of currency and
  demand and notice deposits, and credit union and caisse populaire holdings of currency
  and demand and notice deposits held outside provincial centrals and federations.
- Data for non-money market mutual funds represent the assets of funds that invest in
  a wide range of Canadian or foreign financial instruments. The series is an estimate of
  cumulative net inflows into these funds. It is estimated at the Bank using market and unit
  values of mutual funds obtained from Globe Information Services.
  - MI+ consists of Gross MI plus chequable notice deposits held at chartered banks
    plus all chequable deposits at trust and mortgage loan companies, credit unions and
    caisses populaires (excluding deposits of these institutions) plus continuity adjustments.
     MI++ consists of MI+ plus non-chequable notice deposits held at chartered banks.
    - MI++ consists of MI+ plus non-chequable notice deposits held at character of banks, trust and mortgage loan companies, and credit unions and caisses populaires less interbank non-chequable notice deposits plus continuity adjustments.
